Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) OR THIRTY (30) DAYS, WHICHEVER IS LONGER, FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

Status

DETAILED ACTION

Continued Examination Under 37 CFR 1.114

1. A request for continued examination under 37 CFR 1.114, including the fee set forth in 37 CFR 1.17(e), was filed in this application after final rejection. Since this application is eligible for continued examination under 37 CFR 1.114, and the fee set forth in 37 CFR 1.17(e) has been timely paid, the finality of the previous Office action has been withdrawn pursuant to 37 CFR 1.114. Applicant's submission filed on June 10, 2005 has been entered.

Information Disclosure Statement

2. The information disclosure statement filed August 26, 2005 fails to fully comply with 37 CFR 1.98(a)(2), which requires a legible copy of each cited foreign patent document; each non-patent literature publication or that portion which caused it to be listed; and all other information or that portion which caused it to be listed. The foreign patent documents and non-patent literature publication referred to therein have not been considered.

Allowable Subject Matter

3. The indicated allowability of claims 29-38, 59-62, 77-85, 107-110, 171-179, 201-204 is withdrawn in view of the further consideration of the previously applied reference to Shavit et al. (US 4,799,156). Rejections based on the reference follow.

Claim Rejections - 35 USC § 112

4. The following is a quotation of the first paragraph of 35 U.S.C. 112:

The specification shall contain a written description of the invention, and of the manner and process of making and using it, in such full, clear, concise, and exact terms as to enable any person skilled in the art to which it pertains, or with which it is most nearly connected, to make and use the same and shall set forth the best mode contemplated by the inventor of carrying out his invention.

5. Claims 72, 121, 123, and 167 are rejected under 35 U.S.C. 112, first paragraph, as failing to comply with the written description requirement for same reasons given in the last Office action and repeated below. The claims contain subject matter which was not described in the specification in such a way as to reasonably convey to one skilled in the relevant art that the inventor, at the time the application was filed, had possession of the claimed invention.

Claims 72, and 167 recite the area of interest as being a maximum amount that the interest buyers will pay, based upon which a vendor is selected (parent claims 77 and 159). Claims 121 and 123 recite isolating potential buyers based on price. However, the specification does not describe such isolating of a vendor using either maximum purchase amount or price. On page 8, line 6-8, the specification describes a buyer soliciting proposals for a particular item from vendors qualified for the designated merchandise. On page 12, lines 10-12 describe transmitting buyer requests for proposals only to vendors designated to sell the merchandise. On page 18, lines 2-10 describe regulating communication using merchandise codes which indicate the type of

products each vendor is authorized to sell. Applicant argues that the request form of Figure 9 includes price data. However, the request form is transmitted to vendors who are authorized to sell the designated merchandise, as identified by the merchandise code on the request form. There is no description of the control system isolating or communicating with vendors based on maximum purchase amount or price. It is the vendors which receive the price data on the request form. There is no description of the control system utilizing purchase, cost or price data, as recited in the above-identified claims.

Claim Rejections - 35 USC § 103

6. The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negated by the manner in which the invention was made.

7. Claims 17-23, 25-40, 42-64, 66-205 are rejected under 35 U.S.C. 103(a) as being unpatentable over Shavit et al. (US 4,799,156, hereinafter "Shavit") in view of Lockwood (US 5,576,951).

Shavit discloses an electronic commercial transaction system (interactive market management system) for selectively enabling communication between members of plural groups (buyers 82, suppliers 84, distributors 83, etc.), comprising:

an interface (communications interface 79 permits on-line computer access by remote buyers 82 with market participants, such as sellers 83, 84, 86, 88, 94, 96, etc.; col. 5, line 39.- col. 6, line 51);

an input system (personal computers 62, 64 allow remote buyers to designate the particular goods or service desired via a request for quotation (RFQ); col. 25, lines 28-33; col. 5, lines 43-47; col. 6, lines 39-51);

a memory (system 50 maintains user profiles for every user, col. 9, lines 52-68, and stores and logs every operation for each user ID, col. 11, lines 22-29));

whereby the control system subsequently electronically outputs by electronic mail to an indicated email address for electronic email communication relating to the interested buyer, an indication regarding said area of interest (system 50 provides email messages to each user, including bids in response to requests for particular goods or services input by the user, promotions, and other information of particular interest to buyers; col. 11, lines 52 – col. 12, line 26; col. 13, lines 25-27; col. 18, lines 44-49; col. 20, lines 2-39).

Shavit differs from the claims in that it does not specify the control system processing the input data to isolate at least one select vendor site from a plurality of vendor sites based on the area of commercial interest designated by the buyer and an indication including select video data presentations. However, Lockwood teaches the desirability of having a central processor 222

select an appropriate vendor-supplied data source associated with the customer's request, col. 18, lines 51-54; col. 19, lines 52-53; col. 20, lines 36-39, for output to the customer as a high-resolution audio-visual presentation; col. 18, lines 9-56; col. 19, lines 13-24, 52-57) such that it would have been obvious to an artisan of ordinary skill to incorporate such vendor selection, as taught by Lockwood, within the system of Shavit in order to provide buyers with a more efficient means of selecting goods and services from a plurality of vendors by providing customized audio/video presentations based on the buyer's area of interest. In this way, the buyer need not manually select each distributor from which information is desired.

Response to Arguments

8. Applicant's arguments with respect to claims 17-23, 25-40, 42-64, 66-205 have been considered but are moot in view of the new ground(s) of rejection.

9. Any inquiry concerning this communication or earlier communications from the examiner should be directed to Stella L. Woo whose telephone number is (571) 272-7512. The examiner can normally be reached on Monday-Tuesday, Thursday-Friday.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Curtis Kuntz can be reached on (571) 272-7499. The
